PROJECTS

Portfolio, 3 Weeks

I have created my own portfolio by myself. And I've used html, css and javascript technologies to make to good.

Digital clock, 1 Days

The Digital Clock project is just like running the time as our current time of our systems.

To-do-list, 3 Weeks

In 1st week: I have just created whole to-do list necessities.

In 2nd week: I have been modified to allow users to delete their task that they have been uploaded by default.

In 3rd week: I have full deployed and ensured that users may also be mark as completed and they can also see their time and date of adding task.

Password generator, 2 Days

SOCIAL LINKS

- <https://dileepreddy11.github.io/dileepreddy.com/>

I've created a password generator which will ask you the length of a password first and then among the four options such as include Uppercase, Lowercase, numbers and special characters. You should opt atleast one to proceed and to get the randomly generated password.

Calculator, 4 Days

The calculator includes the functionalities such as Arthematic. Therefore for that I've used JS to enhance.

Birthday wishes, 1 Days

It is all about wishing the birthday based on getting input from user as NAME of the wisher you are looking to wish on their birthday.

Temperature converter, 2 Days

It converts the temperature from among Kelvin, celsius and Fahrenheit.

OTHER INTERESTS

Reading books and writing new quotes.

EXTRA-CURRICULAR ACTIVITY

Kabaddi

I have selected as a state player which was under 19.
